

# Charging station - Column 2 x 22 kW

**Charging station - Column: 2 x 22 kW | Maximum working performance: 22 kW**  
**Working current: 32A – 3 phases | Cable length: 2 x 5 m**

Charging station - column is suitable for outdoor and indoor places like public parking lots, hotel parking lots, gas stations, rest stops, family houses, garages, etc.

Strong construction of a charger and a column guarantees long service life and also resistance against a bad weather. Protection level IP54 guarantees a color resistance of a charger. Connectors Plug Type 2 guarantee compatibility with every commonly used electric car.

Authorization can be done with a RFID card, by scanning a QR code or through an app. To make using easier, there's also a LCD screen. For having two connectors, this charger is a great choice for commercial places

## Details:

- Output power of one connector: 22 kW
- Connector: 2 x Plug Type 2
- Number of vehicles able to charge at the same time: 2
- Certificate: CE
- Input voltage: 230/400V 50Hz
- Maximum charging current: 32A
- Temperature range: -25 °C - + 45 °C
- Humidity: max. 95%
- Interface: LED, LCD screen
- Authorization: RFID card, barcode card / app - android, iOS, /WEB
- Communication: WiFi/GPRS
- Communication protocol: EJOIN protocol / OCPP 1.6
- Protection level: IP54
- Material: aluminum/UV resistant plastic
- Dimensions: 1610 x 350 x 350 mm

Connector Plug Type 2

WE UNDERSTAND THE FUTURE
