

Optional features of ejoin charging stations

Bar code & QR code scanner

Scanner is suitable for every ejoin charging station for indoor and outdoor usage, such as public parking lots, hotel parking lots, gas stations, rest stops or mall parking lots.

Scanner has a versatile application, such as initiating the charging by scanning the bar code from a receipt or loyalty cards, linked to a benefit system of a store chain, restaurant, etc...

Features:

- Installation to a height from 100 to 140 cm
- Scans from a smartphone
- Scans during a day and during a night
- Linked to a benefit system of a store chain
- Supports every commonly used type of a bar code and a QR code
- Can be installed on every ejoin charging station
